ICT STANDARDISATION OBSERVATORY AND SUPPORT FACILITY IN EUROPE

External Advisory Group

The EAG provides competent support guide to the project through the expertise of renowned experts coming from principal ICT technological domains

Standards Watch → EUOS

The evolved version of the *Standards Watch*, the new **EU**ropean **O**bservatory for ICT Standardisation (**EUOS**) will play a major role inside StandICT.eu.

Improved in usability, **complete with branding**, constantly updated collecting & serving standards covering:

- 5G & fixed network/internet
- IoT
- Cybersecurity
- Data Commons
- Cloud computing
- Quantum Technologies
- AI
- Blockchain/DLT
- Industry 4.0
- ITS/automated driving
- FinTech/financial services
- eHealth

EUOS main pillar in building a sustainable ecosystem around ICT standardisation in Europe, aiming to become the central reference of the current and future generation of European ICT Standardisation Experts.
